How to Change Your Mouse Settings: Left-Handed Mousing

For Windows/PC Platform:
To change your right-handed mouse setting to the left, follow the steps below:

- Go to the “Start” Menu (Windows icon at bottom left of the screen)
- Select “Control Panel”
- Select “Mouse”
  - In the Mouse setting window, click the “Switch primary and secondary buttons” box under the “Button Configuration” section of the “Buttons” tab.
  - Click “Apply.”

To change back to right-handed mousing, follow same steps listed above.

For Mac Platform:
To change your right-handed mouse setting to the left, follow the steps below:

- Launch System Preferences
- Click on “Mouse”
- Look for “Primary mouse button:”
- Select the bullet box next to “Right”

To change back to right-handed mousing, follow the steps below:

- Launch System Preferences
- Click on “Mouse”
- Look for “Primary mouse button:”
- Select the bullet box next to “Left”
